

Sirico Electronics' quality policy is based on controlled, profitable, and quality-driven growth, and consists of the following elements:

- **Customer Satisfaction**
We keep our customers satisfied and confident in our performance and operations.
- **Innovation and a Solution-Oriented Approach**
We help our customers develop their products to be reliable and competitive.
- **Trust**
We are committed to achieving and maintaining the trust of our customers, owners, personnel, and other stakeholders.
- **Commitment**
We adhere to agreed contracts, quality standards, and deliveries, and operate responsibly with respect to the environment. We comply with all applicable regulations and requirements.
- **Continuous Improvement and Competitiveness**
We continuously improve our operations based on customer feedback and our own analyses.
